America loves their pets. Millions of dollars are spent yearly to make them happy and healthy. Sadly, millions of animals are not that lucky.

Founded in 1994, the Michigan Animal Adoption Network is dedicated to assisting animals in the Metro Detroit area by providing food, proper shelter, straw and supplies to thousands of households each year.

The Animal Care Network, a division of the Michigan Animal Adoption Network, consists of street team volunteers who venture into neighborhoods in search of animals and pet owners in need. The Animal Care Network has become a well-known source of assistance and advice for thousands of citizens, receiving hundreds of calls weekly.

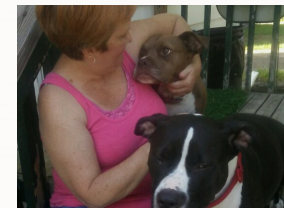

DEDICATED TO THE ANIMALS

Our sole mission is saving the lives of cats and dogs, spaying / neutering and educating pet owners. We have become a source of assistance and advice for thousands of citizens. Over the years, the Animal Care Network has received national acclaim and recognition for this unique program from Animal Planet, The History Channel, Nickelodeon and Best Friends Magazine. Thousands of animals are saved by our efforts each year due to the generosity of the community.

We are truly grateful for your support.

MISSION:

To provide proper housing, straw, food and supplies to animals living in outdoor conditions as well as offer assistance to families with animals living indoors. To target low-income communities by decreasing dog and cat homelessness and overpopulation through low-cost sterilization programs and other resources to families in need. To provide education on proper pet care to owners.

Keeping animals in their homes and out of shelters

Providing life-saving shelter and straw

HOW WE DO IT:

Owners requesting help from ACN are required to have their animals spayed and neutered. Thanks to generous support from donations and sponsors, we have been able to provide these much-needed veterinary services. We service a large elderly population who struggle not only to feed themselves, but also their animals.

Spay / neuter procedures every week

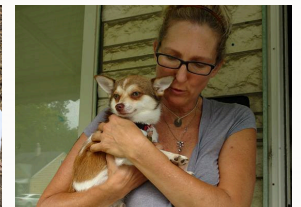

Weekly and often daily food deliveries

OUR PARTNERS:

The Animal Care Network works alongside animal control, police departments, city workers, businesses and citizens with the shared goal of the animal's welfare in mind. Animals surrendered to the network are transferred to partners or are offered foster care until available for adoption.

Providing welfare checks as often as needed

Giving not just food and supplies, but love as well
